Test Method  
for Evaluating  
Roof Drain  
Performance

# ***American National Standard***

Approval of an American National Standard requires verification by the American National Standards Institute (ANSI) that the requirements for due process, consensus, and other criteria for approval have been met by the standards developer.

Consensus is established when, in the judgment of the ANSI Board of Standards Review, substantial agreement has been reached by directly and materially affected interests. Substantial agreement means much more than a simple majority, but not necessarily unanimity. Consensus requires that all views and objections be considered, and that a concerted effort be made toward their resolution.

The use of American National Standards is completely voluntary; their existence does not in any respect preclude anyone, whether he has approved the standards or not, from manufacturing, marketing, purchasing, or using products, processes, or procedures not conforming to the standards.

ANSI does not develop standards and will in no circumstances give an interpretation of any American National Standard. Moreover, no person shall have the right or authority to issue an interpretation of an American National Standard in the name of ANSI. Requests for interpretations should be addressed to the secretariat or sponsor whose name appears on the title page of this Standard.

This American National Standard may be revised or withdrawn at any time. ANSI procedures require that action be taken periodically to reaffirm, revise, or withdraw this Standard. Purchasers of American National Standards may receive current information on all standards by calling or writing ANSI.

# ***Contents***

## **Preface**

### **ASPE Main Standards Committee**

### **IAPMO Plumbing Standards Committee**

### **ASPE/IAPMO Z1034 Technical Subcommittee**

## **1 Scope**

## **2 General**

2.1 Test Apparatus

2.2 Testing Sequence

## **3 Control Tests**

3.1 Vertical-Pipe Control Test

3.2 Pipe with 1/4 Bends Control Test

## **4 Roof-Drain Tests**

4.1 Vertical-Pipe Roof-Drain Test

4.2 Pipe with 1/4 Bends Roof-Drain Test

## **5 Test Reporting**

## **Figures**

1 Test Apparatus Top View

2 Vertical-Pipe Test Apparatus Elevation

3 Pipe with 1/4 Bends Test Apparatus Elevation

4 Baffle Section Detail

5 Baffle Front View
